Professional Development Week
July 9 to July 11, 2007
Free Workshops for career preparation with presenters from industry
You must Register at /www.cs.rmit.edu.au/orientation/

2008 Software Engineering Internship Program
For all second year Software Engineering students and those Computer Science students who will be transferring into Software Engineering for 2008. Peter McDonald (SE Program Advisor) will discuss the 2008 Internship Program and the process for seeking placements.

IT Interview & Resume Writing Skills
Learn how to increase your chances of being employed in the IT Industry. Practical information on where to look for jobs, tips to improve your resume and cover letter, and how to prepare for IT interviews and assessments. Get inside advice on questions you'll be asked in an interview, how to behave in an interview and following up afterwards. Led by leading Human Resource representatives associated with the IT industry. Bring along your resume.

Public Speaking Skills
There is an increasing demand for IT graduates with good public speaking skills in addition to their technical skills. This workshop will provide tips on making a good presentation, the do’s and don’ts, how to prepare and some hints for coping with nerves.

There is an increasing demand for IT graduates to demonstrate that they have knowledge of good public speaking skills and communication skills, in addition to their strong technical skills. This workshop will provide some tips on delivering a good presentation, hands-on practice and some hints for coping with nerves.

IT Project Management
Presented by industry, this workshop gives some current insight into what a project manager is currently required to do, some good and bad case-studies to further your understanding and knowledge of this role and insight into today's IT requirements.

Managing IT Change in Organisations (including conflict management)
IT professionals must be able to manage IT change in organisations and resolve conflict, when stakeholders are reluctant to change, if they do not understand the benefits of technology and when a project doesn't go as well as planned. This workshop aims to assist students with some change management, negotiation and conflict resolution skills to develop them further in these areas. Presented by an industry representative.
